-jQuery

-Git/Github

## Education

### Syracuse University ·

Sept. 2010 to May 2014

Bachelor's Degree Psychology and Neuroscience

## Activities

Skiing

I moved to Breckenridge, CO in the fall of 2014 to be a ski instructor. Skiing is my favorite hobby but I love all winter sports!

Guitar

I'm a self-taught guitar player. I enjoy learning new songs and playing casually as a way to relax.

## Web Development Projects

### Lets Go

Aug. 2019 to Current

- Currently under development - I update my blog with plans, progress, and problems.
- Full Stack application for finding sports and activity groups in your area.
- Users can create and join groups, and new features are constantly being added.
- Technologies: React, JavaScript, CSS, Bootstrap, Ruby, Rails, and PostgreSQL.

### Expense Tracker

Apr. 2019 to May 2019

- Full stack application for keeping track of personal expenses.
- Expenses are customizable and contain a date, amount, category, and description.
- Front end is built using React and features a clean, user friendly design and interactive calendar element.
- Technologies: React, JavaScript, SCSS, Rails, and Heroku.

### Nile

Mar. 2019

- E-commerce application built in a team using Agile methodology.
- API is built with Express and integrates with a third party Stripe API.
- Technologies: HTML, CSS, JavaScript, Express.js, and MongoDB.

### Wanderlust

Mar. 2019

- Full stack application where users can save their travel destinations.
- Each destination contains a location, description, and contact information.
- API is built with Rails and deployed on Heroku.
- Technologies: HTML, CSS, JavaScript, Handlebars, jQuery, Bootstrap, Ruby, Rails, and PostgreSQL.

## Experience

### Web Development Immersive

Boston, MA

General Assembly

Jan. 2019 to Apr. 2019

- Trained in a variety of modern programming languages during the 12 week long, 480+ hours course.
- Learned front-end and back-end development fundamentals.
- Experimented with a variety of development techniques and strategies.
- Built full stack applications both individually and in group settings.

### Granite Telecommunications

Quincy, MA

Senior Premier Account Analyst

Apr. 2017 to Jan. 2019

- Promoted to Senior position for exemplifying professionalism, integrity, and accountability.
- Oversaw a book of business of 5,000+ phone lines and 250+ internet circuits for 35 corporate clients.
- Responsible for deep knowledge of all products and services.
- Trained new employees on processes and strategies for success.

### O Steaks and Seafood

Laconia, NH

Server

May 2016 to Feb. 2017

- Successful multitasking and remaining professional in fast-paced environment.
- Comfortable working with constantly changing circumstances and environment.
- Instructed new employees on every aspect of job requirements.

### Vail Resorts

Breckenridge, CO

Ski Instructor

Nov. 2014 to Apr. 2016

- Set daily goals for each student, then planned lessons using a step by step approach.
- Received PSIA certification for demonstrating skill and teaching ability.
- Responsible for providing safe and fun learning environment for guests.
