Skills

-HTML
-CSS
-JavaScript
-Bootstrap
-Ruby
-Rails
-SQL
-Handlebars
-SASS
-Git/Github
-AJAX
-React

Activities

Skiing

Moved to Breckenridge, CO in the fall of 2014 to teach skiing. I've been skiing every winter beginning at 3 years old!

Guitar

I'm a self-taught guitar student. I enjoy playing casually as a way to relax.

Surfing

I taught myself to surf in the summer of 2012. I like the balance of skiing in the winter and surfing in the summer.

Web Development Projects

Expense Tracker

Apr. 2019

- Provides a platform for keeping track of personal expenses.
- Utilizes React.js with Bootstrap for the front-end.
- Utilizes Ruby on Rails for the back-end.
- Authenticated users can create, read, update, and delete expenses.

Nile

Mar. 2019

- E-commerce website created in a team setting.
- Utilizes HTML, CSS, Javascript, Bootstrap, and jQuery on the front end.
- Utilizes Express.js and Mongodb for the api.
- Allows users to view products, add to cart, and checkout using Stripe.

Wanderlust

Mar. 2019

- Built full stack web application where users can save travel plans.
- From the deployed client, users can register, sign in, and CRUD postgresSQL database resources.
- Utilizes a custom Rails API for users to CRUD destinations.

Tic-Tac-Snow

Feb. 2019

- Built front-end tic-tac-toe application, including game logic, which utilizes a third-party Rails API.
- From the deployed client, users can register, sign in, and CRUD postgresSQL database resources.

Experience

Web Development Immersive

Boston, MA

General Assembly

Jan. 2019 to Apr. 2019

- Trained in a variety of modern programming languages during the 12 week long, 480+ hours course.
- Covered front-end and back-end development fundamentals.
- Created full-stack applications individually and in group settings.

Granite Telecommunications

Quincy, MA

Senior Premier Account Analyst

Aug. 2017 to Jan. 2019

- Promoted to Senior position after proving to be effective and efficient employee.
- Managed a book of business of 5,000+ phone lines and 250+ internet circuits for 35 corporate clients.
- Trained new employees on every aspect of job requirements.
- Organized stakeholder meetings to report weekly progress.
