Education

Syracuse University ·

Sept. 2010 to May 2014

Bachelor's Degree Psychology/Neuroscience

Phillips Exeter Academy

Sept. 2007 to May 2010

Diploma

Activities

Skiing

Moved to Breckenridge, CO in the fall of 2014 to be an instructor. Skiing is my absolute favorite pastime.

Guitar

I'm a self-taught guitar player. I enjoy learning new songs and playing casually as a way to relax.

Web Development Projects

Expense Tracker

Apr. 2019

- Full stack application for keeping track of personal expenses.
- Adding new feature to integrate with Google Calendar third party API.
- Technologies: React.js, JavaScript, Handlebars, CSS, Bootstrap, Ruby, Rails, and PostgreSQL.

Nile

Mar. 2019

- E-commerce application built in a team using Agile methodology.
- API is built with Express and integrates with a third party Stripe API.
- Technologies: JavaScript, Handlebars, jQuery, HTML, CSS, Bootstrap, Express.js, and MongoDB.

Wanderlust

Mar. 2019

- Full stack application where users can save their travel destinations.
- API is built with Rails and deployed on Heroku.
- Technologies: JavaScript, Handlebars, jQuery, HTML, CSS, Bootstrap, Ruby, Rails, and PostgreSQL.

Tic-Tac-Snow

Feb. 2019

- Front end application where users can play tic-tac-toe in the browser.
- Uses a third party API to track each move and each game.
- Technologies: JavaScript, HTML, CSS, and Bootstrap.

Experience

Web Development Immersive

Boston, MA

General Assembly
